2015 SUMMER BIOLOGY/CHEMISTRY/INDUSTRIAL HYGIENE INTERNSHIPS

Descriptions:

United Launch Alliance (ULA) summer internships are 10-weeks in length and start no earlier than May 26, 2015 and no later than June 22, 2015.

Safety, Health, and Environmental Affairs intern position at the Decatur Production Facility offers a variety of opportunities for Safety, Health, and Environmental tasks including: industrial hygiene, waste management, production, assembly, test, transportation, control, and launch of launch vehicles with ground support equipment. Internships may require travel to other ULA locations.

Interns will typically support one or more experienced SHEA professionals in performance of assignments, spend time shadowing actual operations, and have unique assignments that support larger projects as well as experience the day-to-day workings of SHEA within United Launch Alliance. Interns may perform and/or participate in additional activities/events which help them build a strong network within the ULA community and with fellow interns.

A taxable housing/transportation stipend may be provided to obtain housing near the ULA work location if the successful candidate’s permanent home address and current college address are both greater than 50 miles from the assigned ULA work location.

IMPORTANT: After a candidate applies to the appropriate requisition on-line and if the candidate meets the basic qualifications as listed, a member of the ULA staffing team may further screen resumes to determine which candidates meet the position basic qualifications (requirements). Those meeting all job basic qualifications and key preferred skills may be forwarded to the hiring manager for review. The manager will then review both the resume and transcript of a candidate prior to conducting a phone interview. Based on the results of the phone interviews, an offer for employment may be extended to the best qualified applicant as long as the candidate does not withdraw from consideration. The internship hiring process may take three to four months from the first contact a candidate has with a recruiter until a student is selected for an intern position.

Basic Qualifications:

United Launch Alliance (ULA) summer internships are 10 weeks in length and start no earlier than May 26, 2015 and no later than June 22, 2015.

Applicant must meet all of the following qualifications to be considered for this position:
-You must be 18 years of age.
-You must be a US Citizen or US Person.
-Junior candidates must be in your third or fourth year of studies.
-You must be planning on graduating with a Bachelors degree and entering the workforce on a full time basis between December 2015 and December 2016.
-You must be working toward a BS or MS degree in Industrial Hygiene, Chemistry, or Biology with a focus in environmental processes.
-You must have motorized vehicle transportation to perform an internship assignment. Decatur, AL does not have a public transportation system.
-ULA has a minimum college GPA requirement of 2.90 on a 4.00 scale; cumulative, no rounding. NOTE: To complete your application and be considered, you must submit your unofficial transcript. If you are selected for an internship, you must maintain a cumulative GPA of 2.90 after each completed semester/term. Note that ULA only considers the cumulative GPA listed on the unofficial/official transcript provided by the institution that the candidate currently attends.

To be considered for an intern position the candidate MUST APPLY ONLINE. EMAIL/PHONE/FAX WILL NOT be accepted. Please follow this link to apply to one of the following requisitions. http://www.ulalaunch.com/site/pages/Careers.shtml
